

Our universe is a puzzle that we are trying to discover little by little. Every piece of it is one point of view, and the more we see, the bigger picture we have.

Try to find all the 7 images or mix them up to create new ones. Notice how the rivers basins look like veins under our skin. What other similarities can you find?

# Solar System

6 pieces

Somewhere in the vast cosmos, in one of the galaxies called **Milky Way**, there is a very special star that we call **'Sun'**.

# Earth

6 pieces

Among many planets and asteroids rotating around the Sun, there is a tiny dot: **Earth**, our home.

# Eco-system

6 pieces

This planet is the home of countless creatures and plants, that live together and depend from one another to exist.

# Veins

6 pieces

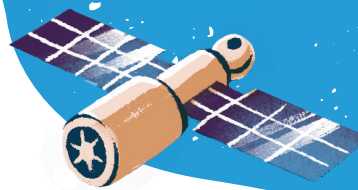

We are so different and yet so similar, we follow the same rules of nature, we are all part of it.

# River

6 pieces

Earth it's full of colors, especially full of blue water that brings **life**, and allows us to grow and evolve.

# Atom

6 pieces

And no matter how far or how close you look, you can always find familiar shapes creating everything around you.
