

Fellow hoopla games set is set of 2 popular games, that can be played indoors and outdoors.

Set contains:

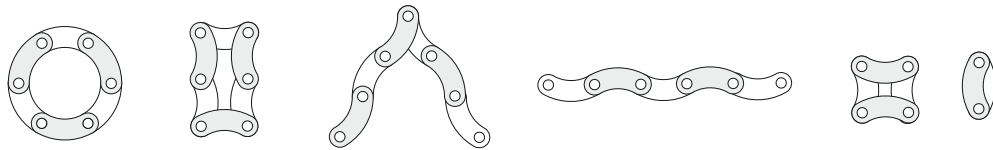

This toy is made of solid wood. For best performance please do not expose to extremes of temperature and/or humidity. Wood being natural, each toy is unique in structure. We therefore recommend adult supervision of play with young children. Please protect the toy from the influence of water.

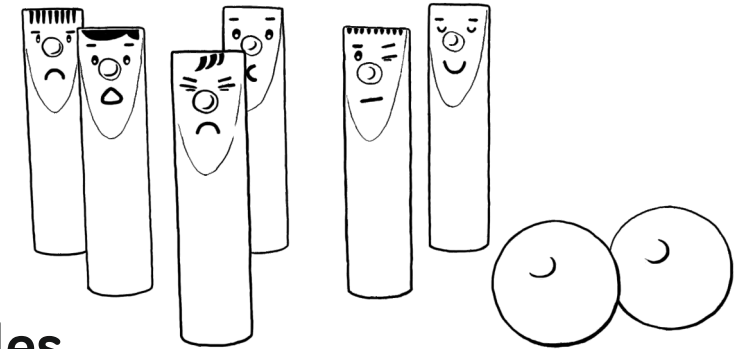

Hoopla game

This game has very simple rules. Players take turns throwing the rings to the stick with the highest number. Count the points after each player turn. You may play individually or as teams, each player adding their score to the team total.

The winner is the player, or team, with the highest score after an agreed number of rounds.

You can set difficulty level by making different arrangements and setting throwing distance shorter or longer. We recommend players to set the throwing point at least 3 meters from the game.

Skittles

Set the skittles up in a triangle formation, 3 at the back 2 in the centre row and 1 at the front with each soldier around 16 cm apart (the bigger the distance the more difficult is the game). The throwing point is normally 5 meters from the skittles.

Players take it in turns to throw the ball 3 times each. If all 6 skittles are knocked over by the first or second skittle ball, they are all set up again. Therefore a player's maximum possible score is 18.

You may play individually or as teams, each player adding their score to the team total.

The winner is the player, or team, with the highest score after an agreed number of rounds.

There are many variations of those games, our rules are only a suggestion. Players can also try to find new rules.
