

# the Hempions by TOBE

## HEMP IS ECOLOGICAL AND SKIN-FRIENDLY

This collection is made from a perfect material and one of the safest for children.

Here there are some of the reasons why we decided to use hemp instead of cotton or any other common resources.

## ABOUT HEMP

Hemp is a relative of cannabis but it is NOT a drug!

**(THC)**

(it contains less than 0,2% of THC)

It uses  
**4 TIMES LESS WATER**  
than cotton

and half of the land than cotton needs.

It has the ability of cleaning the soil from heavy metals and poisonous substances.

### FROM THE SEEDS

Cooking oil, flour, fuel, beer, paint, animal feed, body care products, butter, tea.

Washing and use only makes them softer

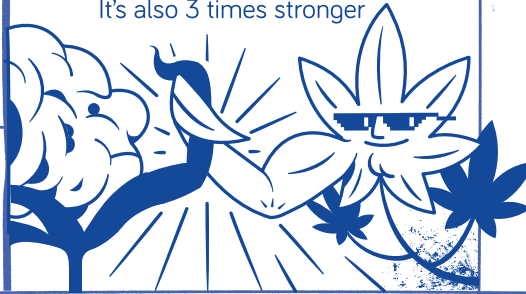

They're safe and hypo-allergenic!

Hempions' textile dries faster than cotton

It's also 3 times stronger

Hemp doesn't need pesticides nor herbicides while growing. It naturally repels bugs and microbes.

It fertilizes the soil, helping it regenerate after other crops.

It can absorb large amounts of CO<sup>2</sup>, improving the air quality on Earth.

A hemp plantation produces more O<sup>2</sup> than some forests.

## HEMP DOESN'T WASTE A THING!

**IT HAS MORE THAN 50.000 USES...**

### FROM THE STALK

Textiles, house insulation, paper, organic compost, animal bedding, fiber boards.

### FROM THE ROOTS

Organic compost, medicine.

### FROM THE LEAVES

Animal bedding, mulch, medicine.
